Ozzy Osbourne is one of the biggest stars in the world at the moment. He's about to sign up for a second series of MTV's "**The Osbournes**" fly-on-the-wall documentary in a multi-million pound deal. There's a new single out. He has **Ozzfest** this summer as well as the Party At The Palace Concert and the TV show which has topped MTV ratings and starts its run in the UK this month. **Garry Sharpe-Young's** book couldn't be timed better for those who want to find out more about the man, his band, his music and why MTV are about to pay an estimated 15 million pounds so we can see more of him giving his kids drink and drugs lectures and receiving coaching on how to use the remote control from said offspring.

This then is the story of the **Ozzy** Osbourne band - in their own words and detailed exclusively here for the first time. Chronicled with first-hand interviews, this is the real story of the first prototype **Blizzard of Ozz** band, how **Ozzy** met **Randy Rhoads**, the painful saga of **Rhoads'** replacement **Bernie Torme** and the torturous audition processes for successive guitarists and drummers told by both successful and unsuccessful candidates.

The **Ozzy Osbourne** story - as told by **Bob Daisley, Lee Kerslake, Tommy Aldridge, Bernie Torme, Brad Gillis, Steve Vai, Phil Soussan, Carmine Appice** and many, many more.

Garry Sharpe-Young has interviewed more than twenty **Ozzy** band members and associates solely for this work so making it the most detailed account of **Ozzy's** career so far...
